

A short-period view is a good way to predict a company's future development. But too short time will lose reality and predict value. So I decided to compare the mean of employees in the second half of 2017 and the first half of 2018 to calculate the growth rate instead of drawing a plot. Because the plot is unstable that its prediction is reliable only in a very short period predict.

First I generate 50 companies with the best growth rate. And then, I choose 10 of them which have the largest employees change.

These are the 10 companies that have both a high growth rate and high employees change. Their employees increase by at least 1.37 times from the second half of 2017 to the first half of 2018.

If investors want to find companies that can predict the stock price increase from the hiring.

These companies may have a good future in a short-period view.

Company	employees change	2017 employees	growth rate
Realogy Holdings Corp.	42989.71	20056.08	2.14
Marsh & McLennan Companies	33285.69	22879.36	1.45
Danaher Corporation	30968.56	15191.81	2.04
Omnicom	25631.29	12407.11	2.07
TechnipFMC	25617.09	8490.27	3.02
Aegon	22475.28	16368.74	1.37
21st Century Fox	22475.10	7618.47	2.95
Darden	19811.65	15996.96	1.24
S&P Global	18397.53	12106.57	1.52
Brinker International	11912.66	7636.44	1.56
